Product Name :

Concrete Test Hammer Schmidt Hammer
N-Type

Product Code :

SLE/CE/41

Description :

Specification:

- The quality of concrete is mainly judged by its compressive strength directly affecting the load bearing capacity and durability of concrete structures.
- The test object should have a minimum thickness of 100 mm.
- Concrete test hammer (Schmidt Hammer N type) is used to measure the compressive strength characteristics of hardened concrete non-destructively, control uniform concrete quality and detect weak spots in the concrete.
