

**Product Name :**

Working Model Of Hydraulic Braking  
System

**Product Code :**

SLE/MCE/68

## Description :

### Specification:

- The trainer can be used in the classroom environment for demonstrations to students.
- The training brake rig can be used as visual aid for students of mechanical subjects to demonstrate and explain the structure and components.
- Also, automotive training stand can be used as a educational equipment for the brake system repair and service procedures.
- Demonstrates full functionality of a 4-wheel hydraulic brake system.
- Provides easy access to all brake components without the confinements of a real vehicle.
- Pressure gauges show actual braking pressure at each wheel.
- Real” automotive components with fully functional disc/drum hydraulic braking system including:
  - Fits through a standard 30” door opening.
  - Heavy duty metal stand with casters for easy transport.
  - Parking brake components.
  - All hydraulic components.
  - Brake pedal and parking brake pedal.
  - Power brake booster.
  - Hydraulic pressure gauges at each wheel.
  - Fully functional parking brake system.
  - Dimensions: 1000 x 800 x 1200 mm
  - Weight: 140 kg (approx)
