

Product Name :

Worcester Circuit Board

Product Code :

SLE/PHY/87

**Description :**

The new improved Worcester circuit board allows students to investigate the nature and properties of electricity. The detachable battery holders enable the construction of simple series and parallel circuits. The diode and resistor are mounted as the switch and builder so as to provide an easy and quick construction of circuits. The plugs and crocodile clips allow extension to outboard experiments. The phosphor - bronze connectors ensure long life and good electrical conduction.
