

Product Name :

Moments Kit

Product Code :

SLE/ETP/22

**Description :**

- This kit includes a rigid beam for experiments in the principle of moments, extending to levers and beams.
- A pulley allows extra experiments with moments caused by oblique forces.
- The rigid beam allows experiments that show the use of moments to find unknown weights, creating simple beam balances.
- It shows the three main lever types and includes an 'L' shape plate for experiments in bell crank levers.
- It also works with spring balances to show reaction forces on beams with point loads and uniformly distributed loads.
