

Product Name :

Expansion Of Perfect Gas

Product Code :

SLE/EA/22

**Description :**

- The apparatus consists of two frame mounted interconnected transparent and rigid vessels, with one vessel equipped for operation under pressure and the second vessel under vacuum.
- The vessel is pressurised and vacuumed using an electrical air pump together with valves and tappings.
- Provides accurate real-time data capture, monitoring and display, calculation and charting of all the important readings on a computer.
- The vessels are independent and can also be used together to enable the study of various thermodynamic processes.
