Product Name :

Forensic Comparison Microscope

Product Code :

SLE/M/53

Description :

Eyepieces (2): 10x

Focus: Coaxial coarse and fine adjustment.

Head Type: One Siedentopf-design trinocular head mounted on a comparison bridge on top of 2 microscope bodies.

Illumination: LED bulb with variable intensity control.

Light Source: Top and bottom LED lights.

Objective Lens: 2x macro; 4x, 10x, 40x micro.

Power Supply: Cordless rechargeable or AC operation.

Stage: Floating stage with clips for micro; floating B & W plate for macro.

Top and bottom LED illumination provides energy-efficient white light with virtually no heat.

Extra-bright LED lasts up to 50,000 hr between replacements resulting in minimum maintenance and downtime.
