

Product Name :

Fruit fly Genetics Kit

Product Code :

SLE/BL/33

**Description :**

This unique kit contains simple activities designed to teach basic fruit fly genetics without using live flies. *Drosophila Melanogaster* is used without the inconvenience of maintaining live fruit fly cultures. Includes 15 sheets each, with snap apart features showing male and female and 4 types of fruit flies. Students can perform crosses using plastic pieces printed with features allowing them to observe and simulate sex determination, single factor inheritance, double factor inheritance, sex linkage, dominance and recessiveness. Teacher's Guide and Student instruction sheet included.
