

Product Name :Chemistry Demonstration Nylon 6-10 Rope
Trick**Product Code :**

SLE/CH/105

**Description :**

Kit contains sufficient reagents for five demonstrations.

Show an example of polymer chemistry.

Make your own nylon which is a synthetic compound of high molecular weight that consists of up to millions of repeated chemical units that are linked together.

This polymer is referred to as Nylon 6-10.

Instructions Included.

Contact Science Lab for your Educational School Science Lab Equipments. We are best science educational equipments, science educational instruments, science lab equipments manufacturer, science laboratory instruments exporter, scientific educational equipments, scientific educational lab equipment.
