

**Product Name :**

Hotplate & Magnetic Stirrer Pro

**Product Code :**

SLE/LHP/07

## Description :

This Hot plate stirrer heats to 340° and is widely used in chemical synthesis, physical and chemical analysis, bio-pharmaceuticals and other fields.

The hotplate casing is made from moulded stainless steel.

The hotplate is ceramic coated to resist corrosion and increase heating consistency.

PID temperature technology controls heating process ensuring that target temperature is reached quickly and control and accuracy is enhanced.

This hotplate model is suitable for external temperature sensor which displays and controls the actual liquid temperature.

### Technical Specifications :

Ceramic coated

Hot warning light, remains active even when unplugged

Units can be stored on side

Integral fitting for retort rod

**Stirring Capacity:** 20 litres

**Dimensions:** 155(w) x 270(d) x 55(h) mm

**Net weight:** 2.3kg

**Electrical supply:** 240V

Design to allow standard retort base to slide underneath

**Plate Dimensions:** 135 x 135 mm

**Stirrer Speed:** 30 to 1500 rpm

**Max. Plate Temperature:** +340°C

**Heater Power:** 530W

Socket to fit temperature controller

**Speed accuracy:** +/- 1%

Digital display

**Hotplate Temperature:** up to 340°C

**Temp setting accuracy:** +/- 1C

**Speed accuracy:** +/- 1%

**Heating:** 530W
