

**Product Name :**

Balance Anti-Vibration Table

**Product Code :**

SLE/LB/17

## Description :

Ergonomically styled, the anti-vibration table offers a solid, stable surface developed specifically to help decrease vibration during measurement.

The AVT is easy to assemble, with all necessary tools supplied.

The internal working surface measures 400 X 450mm, allowing ample space for a balance.

Its large, scratch-resistant dark granite slab sits on shock-absorbing rubber mounts, while leveling feet accommodate uneven surfaces.

When used in tandem with a balance, the table allows the balance to perform with marked precision, despite air currents or movements that might cause readings to fluctuate.

The balance fits in the middle of the AVT's granite surface, stabilizing the base and enabling greater precision.

Two-table construction keeps the granite slab in the middle and reduces interference

Large work surface of 400 x 450mm

Scratch-resistant granite slab

Adjustable levelling feet for uneven surfaces

Polished finish is easy to clean

Black laminated table top provides ample work surface for resting samples or documents

Lightweight tubular aluminium frame

Total weight of table and work surface 55kg

## Technical Specifications :

**Overall Dimensions:** 800x600x782mm (wxdxh)

**Net Weight:** 55kg
