Description :

Triple Baths feature three independently controlled unstirred baths in one space saving unit.

Triple 4 litre baths are fitted with side lifting handles for easy lifting.

The low profile design allows easier access to samples in bath.

Each chamber comes complete with a removable "low" height stainless steel perforated shelf.

Comprising of a high quality corrosion resistant stainless steel tank, with a bright clean finish housed in a durable painted outer case.

Painted surfaces feature anti-bacterial finish with good chemical resistance.

All shallow baths require less water and less process chemicals, so are therefore economical to use.

Ideal for heating samples in micro tubes and for other molecular biology applications.
