Compass.

Product Code :

SCL111/1.4

Description :

DESCRIPTION :-

Diameter : 50 mm

An excellent compass for general laboratory use.

The dial shows cardinal points.

The needle is well balanced and is mounted in an aluminum case with glass top.

Aluminum ply type 18mm both side glass.

A compass is a navigational instrument for determining direction relative to the Earth's magnetic poles.

It consists of a magnetized pointer (usually marked on the North end) free to align itself with Earth's magnetic field.

The compass greatly improved the safety and efficiency of travel, especially ocean travel.
