

Product Name :

Apparatus Newton's Ring

Product Code :

SLE/PHY/14

**Description :**

Display the interference pattern caused by the reflection of light between two surfaces. A convex lens mounted on top of a flat lens in a metallic frame with three terminals. Ring measures 4? in diameter and 1-1/2? thick. When viewed with monochromatic light, it appears as a series of dark and light rings. When viewed with white light, it produces a series of rainbow colored rings.
