

Product Name :

Coordinate Board

Product Code :

SLE/MAT/13

**Description :**

This board game makes learning of coordinate geometry fun and easy. A very common task in maths class is to plot and name points on a four quadrant graph.

This coordinate board game with attractive colour counters and dice will help explore the plotting of coordinates and naming their respective points.

A fun colourful learning tool that makes kids familiar with four quadrant graph with name pointed on it. An Engaging group activity for children.
