

Product Name :

Base Ten Blocks

Product Code :

SLE/MAT/19

**Description :**

It is one of the best resources to understand the abstract base ten concept which is base of our decimal number system. Place Value is a very basic concept of mathematics which can be introduced and explored best with base ten blocks.

It provides hands-on experiences to explore the concept of place value, and maths operation of addition, subtraction, multiplication and division as well as concept of mensuration and decimals. Children learn Maths concept faster and for longer duration when they have concrete experiences.

Base Ten manipulative consist of units, rod or long (equivalent to 10 units), flats (equivalent to 100 cubes and 10 x 10 x 10 cm cube).
