

**Product Name :**

Stethoscope

**Product Code :**

"SCL1411/04"

**Description :****DESCRIPTION :-**

- The stethoscope is an acoustic medical device for auscultation, or listening to the internal sounds of an animal or human body.
- It typically has a small disc-shaped resonator that is placed against the chest, and two tubes connected to earpieces.
- It is often used to listen to lung and heart sounds.
- It is also used to listen to intestines and blood flow in arteries and veins.
- In combination with a sphygmomanometer, it is commonly used for measurements of blood pressure.
