

Product Name :

Horizontal Friction Table

Product Code :

SCL-329/063

Description :

DESCRIPTION :-

- Horizontal friction table for experiment related to frictions, superior quality
- For demonstrating the composition of a force and for determining the coefficients of friction between different materials.
- Comprising of a wooden base, hinged inclined plane and pulley.
- Angles can be set between 24 and 45 degrees.
- Supplied with cylindrical metal roller and scale pan.
