

Product Name :

Potentiometer, 10 wire

Product Code :

SCL-343/070

**Description :****DESCRIPTION :-**

- Comprising a 24SWG bare constantan wire stretched along a meter rule (sub- divided in centimeters and millimeters), clamped to brass plates.
- The clamping system is designed to make electrical contact with the wire at the extends of the scale thus leaving virtually no margin for 'end errors'.
- The terminating strips are provided with heavy-duty 4mm socket terminals. Supplied with jockey.
- 10 Wire (1m each) on powder coated aluminum extrusion.
