

**Product Name :**

Pipet Controller

**Product Code :**

SLE/ME/17

**Description :**

This ergonomically designed cordless pipet controller holds glass or plastic pipets from 1 to 100 mL.

Its aspiration speed can be set to low or high to adjust for pipet volume, fluid viscosity, and for fine control.

The replaceable 0.2- and 0.45- $\mu\text{m}$  PTFE filters work with a unique liquid-blocking valve in the controller's silicone nose to protect the unit from liquids.

The silicon pipet holder (with valve), nosepiece, and PTFE filters are autoclavable.

Low-battery warning light.
