Product Name :

Filtered Micropipette Tips

Product Code :

SLE/ME/23

Description :

Protect against cross-contamination with these racked, sterile, filtered micropipette tips.

Tips are noncytotoxic, nonhemolytic, and have 99.9% bacterial aerosol filtration efficiency.

DNase, RNase, and pyrogen free. Rack of 96.

Filters are manufactured with a hydrophobic design to prevent liquids and aerosols from entering the micropipette.
