

Product Name :

Aflatoxin meter

Product Code :

SLE/CH/05

Description :

Using solid-phase enzyme-linked immunosorbent assay ELISA principle, that is, enzyme-linked immunosorbent assay, by the Aflatoxin meter and B1 kit composed of two parts, can be limited, quantitative measurement of samples of aflatoxin B1 content (such as the allocation of other kit can be measured in other toxins), Apply to food, feed, oils and fats, dairy products, pharmaceuticals, beverages, wine products, such as the detection of aflatoxin B1.

The minimum measure volume:0.05ng

Measuring range:	0.05~1ng/ml(ppb)
Absorbance range:	-0.041~1.999(A)
Concentration range:	0.000~9999
Wavelength:	450±2nm
Sensitivity:	<0 .1 g/nml
Precision:	±0.1ng/ml
Test speed:	20 piece/hour
Light source:	light 36V/20mA
Environment of use:	Temperature:5~35oC, humidity
Power:	37W
Working power:	220V±10%,50HZ
Size:	350×270×210 mm
Weight:	9Kg
