**Product Name :**

Waterproof pH Meter

**Product Code :**

SLE/ME/50

## Description :

**Temperature compensation:** auto 0 to 50°C

**Battery:** 4 x V675HP

Waterproof pH meter with a casing that will float if dropped in water.

Resolution with dual level LCD showing pH and temperature readings simultaneously.

Calibration is automatic (1 or 2 points) using push buttons with a choice of five buffer values.

For convenience the pH readings can be held on the LCD using the HOLD button and the meter will automatically switch itself off to preserve battery life.

It can be easily replaced by the user by simply plugging in a new one.
