

Product Name :

Gloves, Ultra Light Weight, White

Product Code :

SLE/G/17

**Description :**

The polyurethane coating provides good abrasion resistance but still allows a very high level of dexterity for intricate and delicate tasks. It is an ultra-lightweight glove that outperforms cotton and nylon gloves.

Features :

Polyurethane coating for optimal hand protection in lightweight applications
EN level 4 of abrasion resistance and EN level 1 for cut resistance
Elastic nylon liner

Applications :

Assembly of small pieces in Industries.
