

**Product Name :**

Separatory Funnel

**Product Code :**

SLE/GF/06

## Description :

This 250 ml separatory funnel is used in a variety of inorganic and organic chemistry processes. The 24/29 standard taper connections are designed for use with other ground-glass joint glassware. This 250 ml separatory funnel is made of high-quality borosilicate glass that can be heated directly in an open flame and will withstand typical laboratory thermal variations common to chemistry processes like heating and cooling. It has a glass stopcock and 24/29 ground-glass stopper.

### Specifications:

Made from high-quality borosilicate glass

**Capacity:** 250 ml

**Overall Length:** 340 mm

**Outside Diameter:** 55 mm

Ground-glass stopcock

**Connection finish:** 24/29 standard taper joints.
