

**Product Name :**

Human Skull with Facial Muscles

**Product Code :**

SLE/A/123

**Description :**

**Size and weight:** 18 x 18 x 25 cm, 1.1 kg.

Study the musculature of the human skull with ease using this life-size plastic replica.

Facial and masticatory muscles are differentiated by color, and the masseter muscle is removable.

The occipitofrontalis and temporalis muscles can be reflected to allow the removal of the skull cap.

The left side of the skull has painted representations of the points of origin (red) and insertion (blue) of the muscles.

Moveable jaw and flexible muscles on the right side of the skull allow students to demonstrate the basic chewing motion.
